### What happens if I pay late?

Premium payments are due in advance, on a calendar month basis. Monthly payments are due before the first day of each month for coverage effective during that month. This means that if any required premium is not paid before the date it is due, the policy will be subject to a grace period. Refer to your member handbook for details on the grace period that applies to you. During the grace period the policy will stay in force, however, claims may pend for covered services provided to the member during the grace period. We will notify the member, as well as providers of the non-payment of premiums and the possibility of denied claims when the member is in the grace period.

If you are terminated for not paying your premium, you are not eligible to enroll with Ambetter again until open enrollment or a special enrollment period.

## Paying Your Premium and Grace Period

### **If you are receiving a premium subsidy:**

Premium payments are due in advance, on a calendar month basis. Monthly payments are due on or before the first day of each month for coverage effective. A grace period of three (3) months from the premium due date is given for the payment of premium. Coverage will remain in force during the grace period. If full payment of premium is not received within the grace period, coverage will be terminated as of the last day of the first month during the grace period, if advance premium tax credits are received.

We will continue to pay all appropriate claims for covered services rendered to you during the first month of the grace period, and may pend claims for covered services rendered to you in the second and third month of the grace period. We will notify the U.S. Department of Health and Human Services (HHS) of the non-payment of premiums. You and your healthcare providers will also be notified of the possibility of denied claims when your coverage is in the second and third month of the grace period. You are not eligible to re-enroll once terminated, unless you have a special enrollment circumstance, such as a marriage or birth in the family, or during annual open enrollment periods.

# Membership and Coverage Information

## Grace Period, continued:

### **If you are not receiving a premium subsidy:**

Premium payments are due in advance, on a calendar month basis. Monthly payments are due on or before the first day of each month for coverage effective during such month. There is a one (1) month grace period. This provision means that if any required premium is not paid on or before the date it is due, it may be paid during the grace period. During the grace period, the contract will stay in force; however, claims may pend for covered services rendered to you during the grace period. We will notify the U.S. Department of Health and Human Services (HHS), as necessary, of the non-payment of premiums. You and your healthcare providers will also be notified of the possibility of denied claims when your coverage is in the grace period.

# Covered Services (Medical Service Expense Benefits)

Ambetter provides coverage for a broad range of medically necessary medical and behavioral health services to meet your healthcare needs. For a service to be covered and eligible for reimbursement, the service must be described in this section, prescribed by your treating provider or primary care provider (PCP), and authorized by Ambetter when prior authorization is required.

Please refer to your plan *Schedule of Benefits* for applicable co-payments, co-insurance, and/or deductible. A list of exclusions can be found in your *Evidence of Coverage* document. Certain services require your provider to obtain authorization prior to the rendering or delivery of the service. These include but are not limited to: services or visits to a non-participating provider, certain surgical procedures and inpatient admissions. If you would like to obtain or verify the status of a service needing authorization, you may contact Ambetter Member Services at 1-877-687-1187 (TDD/TTY 1-877-941-9235 or Mississippi Relay 711). Additional information regarding authorizations can be found in the Prior Authorization section of this handbook.

## Your Ambetter plan provides the following coverage:

- Visits to your primary care provider (PCP)
- Visits to specialists (prior approval may be needed)
- Hospital inpatient services
- Hospital outpatient services
- Mental health and substance use disorder services
- Pharmacy services
- Maternity benefits and services

Any labs, radiology (X-rays), minor surgeries or other services provided during the visit will be subject to your deductible and co-insurance. Please note that preventive care visits, such as an annual well-visit exam, are not included as part of the free visits. Preventive care visits are 100 percent covered by Ambetter.)

***Prior authorization means receiving approvals to get a service before you visit a doctor, specialist or other provider.***

***Ambetter covers in-network services only, with the exception of emergency services. # Covered Services (Medical Service Expense Benefits)

## Primary Care Provider

A primary care provider (PCP), also known as your personal doctor, is the doctor/provider that manages all aspects of your healthcare and is the primary person to contact for your health questions and concerns. Ambetter believes that seeing your PCP is important. When you enroll with Ambetter you must choose a PCP. You will need to see your PCP on a regular basis to take care of your basic medical needs. You can call your PCP when you are sick and do not know what to do to feel better. As soon as you join Ambetter, you should contact your PCP. If you have never been to your PCP, you should introduce yourself as a new member and make an appointment for a preventive visit. It is best to not wait until you are sick to meet your doctor for the first time. Seeing your doctor for regular check-ups helps you find problems early.

### **Your primary care provider will:**

- Ensure service is timely
- Work with other providers when you receive care elsewhere
- Coordinate specialty care with Ambetter
- Provide any ongoing care you need
- Update your medical record, which includes keeping track of all the care that you get from all providers
- Treat all patients the same way
- Conduct regular physical exams as needed
- Provide preventive care visits
- Give you regular immunizations as needed
- Make sure you can contact him/her or another provider at all times
- Discuss what advance directives are and file the directives appropriately in your medical record

# Covered Services (Medical Service Expense Benefits)

## Choosing Your PCP

The Ambetter *Provider Directory* is available online at [Ambetter.MagnoliaHealthPlan.com](https://Ambetter.MagnoliaHealthPlan.com) on the “Find a Provider” page. The *Provider Directory* lists all participating PCPs, along with their addresses, phone numbers, and languages (other than English), they may speak.

As an Ambetter member, you have the freedom to choose any participating Ambetter family practice, general practitioner, internal medicine, nurse practitioner, or physician assistant provider for your PCP. Female members may choose a participating obstetrician/gynecologist (OB/GYN) and child members may choose a participating pediatrician as a PCP. Should you receive services from a nurse practitioner or physician assistant, your benefit coverage and co-payment amounts are the same as the coverage and co-payments listed for services provided by other participating providers. Please refer to your specific Schedule of Benefits for co-payment information.

Once you have selected a PCP, we recommend that you make an appointment to meet with your provider right away. This will give you and your provider a chance to get to know each other. Your provider can give you medical care, advice and information about your health. To make an appointment, you need to call your PCP's office. Remember to take your member ID card with you every time you see your PCP.

### **Provider Types That May Serve as PCPs**

Providers who may serve as PCPs include family practitioners, general practitioners, pediatricians, internists, nurse practitioners, physician assistants and some OB/GYNs.

*If you want to know more about the PCP you would like to select, please call Member Services at 1-877-687-1187 (TDD/TTY 1-877-941-9235 or Mississippi Relay 711). You may also see a list of participating providers at [Ambetter.MagnoliaHealthPlan.com](https://Ambetter.MagnoliaHealthPlan.com) on the “Find a Provider” page.*

## Changing Your PCP

When you joined Ambetter, you may have selected a PCP. If you did not, we may assign you a PCP. If you would like to change or select a new PCP, visit [Ambetter.MagnoliaHealthPlan.com](https://Ambetter.MagnoliaHealthPlan.com) or call Member Services.

## What to Do if Your Provider Leaves the Ambetter Network

If your PCP is planning to leave the Ambetter provider network, we will send you a notice 30 days before the date a provider intends to leave, or as soon as Ambetter is notified by the provider. Please contact Member Services at 1-877-687-1187 (TDD/TTY 1-877-941-9235 or Mississippi Relay 711) as soon as you are aware that your PCP is leaving the Ambetter network so we can help you choose a new PCP. Ambetter will permit you to continue to be covered for health services, consistent with the terms of your *Evidence of Coverage*, by the PCP for at least 30 days after the PCP is dis-enrolled.

If you are in your second or third trimester of pregnancy when your PCP is dis-enrolled, you may continue to see your PCP until you have delivered your baby and completed your first postpartum visit, provided that your PCP's dis-enrollment from Ambetter is not for quality related reasons or for fraud. If you are terminally ill, you may continue to see your PCP indefinitely.

**If you have been seeing a specialist who dis-enrolls from the Ambetter provider network, please call Member Services at 1-877-687-1187 (TDD/TTY 1-877-941-9235 or Mississippi Relay 711) and we will work with you to ensure your care continues.** We will assist you in locating another specialist within the Ambetter network.

In order to continue to provide coverage as noted above, the PCP or specialist has to agree to:

- Accept reimbursement from Ambetter at the rates prior to giving dis-enrollment notice as payment in full, and to not impose co-payments that would exceed your co-payments if the provider had not dis-enrolled
- Adhere to Ambetter quality assurance standards and to providing necessary medical information related to the care
- Adhere to Ambetter's policies and procedures, including procedures regarding referrals, authorization requirements and, as applicable, the provision of services pursuant to a treatment plan approved by Ambetter

Call Ambetter at 1-877-687-1187 (TDD/TTY 1-877-941-9235 or Mississippi Relay 711), so we can assist you with follow-up care and questions.

*Ambetter covers in-network services only, with the exception of emergency services. If you go to an out-of-network provider without prior approval, you will be responsible for all costs associated with those services. Ambetter has a select, in-network group of providers. We ensure that our contracted providers are skilled and licensed in order to provide the best care to you.*

*Except for emergency services, Ambetter does not provide coverage for care delivered by a non-participating provider. In certain situations, prior authorization may be granted for such services if they are requested by your PCP. For more information, please see the Providers Not Participating in Our Network section of this manual.*

## Urgent Care

Urgent care is not emergency care. Urgent care is needed when you have an injury or illness that must be treated within 48 hours. It is usually not life-threatening, yet you can't wait for a routine provider's office visit. Only go to the emergency room if your provider tells you to go, or you have a life-threatening emergency.

### **When you need Urgent Care, follow these steps:**

1. Call your PCP. Your PCP may give you care and directions over the phone or direct you to the appropriate place for care.
2. If it is after hours and you cannot reach your PCP, call our 24/7 Nurse Advice Line at 1-877-687-1187 (TDD/TTY 1-877-941-9235 or Mississippi Relay 711). You will be able to speak to a nurse. Have your Ambetter member ID card number handy when you call. The nurse may help you over the phone or direct you to other care. You may have to give the nurse your phone number. During normal office hours, the nurse will assist you with contacting your PCP.

If you are told to see another doctor or to go to the nearest hospital emergency room, bring your Ambetter member ID card. Ask the doctor to call your PCP or Ambetter so that they are aware of your emergency room visit. Urgent care is only covered when provided by an in-network provider.

# Covered Services (Medical Service Expense Benefits)

## Emergency Care

Ambetter covers emergency medical and behavioral health services 24 hours a day, seven (7) days a week, when provided in or out of the service area. Emergency services are required to treat an accidental injury or an onset of what reasonably appears to be a medical condition. An emergency arises when the lack of medical attention could be expected by a reasonable layperson to result in jeopardy to a member's health, or in the case of a pregnant woman, the health of her or her unborn child.

### Emergency Rooms Are for Emergencies

If you can, call your doctor first. If your condition is severe, call 911 or go to the nearest hospital. If you are not sure if it is an emergency, call your PCP. Your PCP will tell you what to do. If your PCP is not available, an on-call doctor can help. There may be a message telling you what to do.

For emergency care, it is okay if the hospital does not belong to the Ambetter from Magnolia Health network. You can use any hospital to receive emergency services. However, you or someone acting on your behalf **MUST** call your PCP and Ambetter within one (1) business day of your admission. This helps your PCP to provide or arrange for any follow-up care that you may need. Depending on your plan type, co-payments may apply for emergency care received in an emergency room.

You may obtain emergency behavioral health services, by either calling the local pre-hospital emergency medical service system or 911. We do not discourage you from using either phone number if you have an emergency. If you have an emergency behavioral health condition that would be judged by a prudent layperson to require pre-hospital emergency services, please call. You will not be denied coverage for medical and transportation expenses incurred as a result of such an emergency behavioral health condition.

*You can also call our  
24/7 Nurse Advice Line at  
1-877-687-1187.*

## How to Get Medical Care When You Are Out of the Service Area

If you are temporarily out of the service area and have a medical or behavioral health emergency, call 911 or go to the nearest emergency room. Be sure to call Ambetter and your PCP to report your emergency within one (1) business day. You do not need prior approval for emergency care.

Routine or maintenance care is not covered outside the service area. Ambetter will cover emergency care provided in or out of the service area.

## Providers Not Participating in Our Network

You should always see a provider who is part of the Ambetter from Magnolia Health network. An appointment with a non-participating provider (a doctor not in Ambetter's network) must be approved prior to receiving non-emergency or non-urgent treatment. Your PCP will need to call Ambetter to obtain the authorization for you if he/she determines the referral to be appropriate. If Ambetter approves your appointment, your co-payment and deductible will be the same as if the service was provided by a participating provider. However, if you fail to obtain a prior authorization from Ambetter for a service or services from a non-participating provider, no benefit, coverage or reimbursement will be made by Ambetter. You will be financially responsible for payment of the service(s) from the non-participating provider. Ambetter will notify you when the authorization is approved. Refer to the Emergency Care section of this handbook if you need emergency service.

***If you are not sure if a provider is in the Ambetter network, call Member Services at 1-877-687-1187 (TDD/TTY 1-877-941-9235 or Mississippi Relay 711).***

## Referrals

You may need to see a certain provider for specific medical issues, conditions, injuries and/or diseases. Talk to your PCP first. Your PCP will refer you to a participating specialist who can diagnose and/or treat your specific issue. Do not go to a specialist without being referred by your PCP. The specialist will not be able to see you without approval from your PCP. There are some services that you may go directly to a provider without a referral. A listing of these services is available on our website [Ambetter.MagnoliaHealthPlan.com](http://Ambetter.MagnoliaHealthPlan.com). To ensure that you will not be responsible for payment, always make sure you have a referral from your PCP before you seek care with a specialist.

**NOTE: The following are services that may require a referral from your PCP:**

- Specialist services, including standing or ongoing referrals to a specific provider
- Diagnostic tests (X-ray and lab)
- High-tech imaging (CT scans, MRIs, PET scans, etc.); requires prior authorization from Ambetter
- Scheduled outpatient hospital services
- Planned inpatient admission; requires prior authorization from Ambetter
- Clinic services
- Renal dialysis (kidney disease); requires prior authorization from Ambetter
- Durable Medical Equipment (DME); requires prior authorization from Ambetter
- Home healthcare; requires prior authorization from Ambetter

## PCP Coordination of Care to Specialists

When medically necessary care is needed beyond the scope of what your PCP can provide, he/she is encouraged to initiate and coordinate the care members receive from specialist providers. Paper referrals are not required.

# Utilization Management

## Prior Authorization for Services

Prior authorization means pre-approval for services. Prior authorization is necessary for services that must be approved by Ambetter before you get the service. Check with your PCP, the ordering provider, or Ambetter Member Services to see if the service requires authorization. When a prior authorization request from your provider is received by Ambetter, it is reviewed by our nurses and doctors. We will let you and your doctor know if the service is approved or denied. Information about the review process, including the time frames for making a decision and notifying you and your provider of the decision, is located in the following Utilization Review section.

---

## Utilization Review

Ambetter has a utilization review program that reviews medical services, medical and surgical supplies, some drugs and other services to determine if the services are covered under your plan, are medically necessary and are provided in the most clinically appropriate manner. The following methods are used to accomplish this goal.

---

## Prospective Utilization Review

Proposed services are reviewed and approved prior to the service being performed. An initial determination will be made once the health plan has received all necessary information. “Necessary information” includes the results of any face-to-face clinical evaluation (including diagnostic testing) or second opinion that may be required. We will notify you and your provider by written confirmation to let you know if the services have been approved or denied. If your service(s) or benefit(s) is denied, we will include information for filing an internal appeal if you do not agree with the decision.

*You can also visit  
**Ambetter.MagnoliaHealthPlan.com**  
to check authorization and  
benefit coverage.*

# Utilization Management

## Concurrent Utilization Review

This process is used to review ongoing services or treatment plans as they are occurring and to determine when treatment may no longer be medically necessary. (e.g. the ongoing review of an inpatient stay or admission). This process includes discharge planning to ensure services you need after your discharge are arranged and provided to you.

---

## Retrospective Utilization Review

Ambetter may perform a retrospective review to assure the information provided at the time of authorization was correct and complete, or instances where authorization and/or timely notification was not received by Ambetter prior to services being rendered due to extenuating circumstances.

---

## Service Reconsideration

When your provider is first informed that a service has been denied, Ambetter will offer your provider the opportunity to ask for the service to be reconsidered by Ambetter's Medical Director. If the denial is not reversed, you or your authorized representative (including provider) may request an internal appeal. The reconsideration process is not a prerequisite to a grievance or internal appeal.

---

## Adverse Determination Notices

A denial of services based on medical necessity is an adverse determination. An adverse determination is defined as "a determination by Ambetter, based upon a review of information provided, that denies, reduces, modifies or terminates a healthcare service for failure to meet the requirements for coverage based on medical necessity, appropriateness of healthcare setting, and level of care or effectiveness."

In the event an adverse determination is made, you will be provided written notification of the determination within the specified time frames listed for a prospective, concurrent or retrospective review. The written adverse determination notification will include detailed information about the reason for the determination, as well as time frames for submitting an internal appeal of the decision.

***You are not financially responsible for inpatient services you got prior to receiving an adverse determination notice; however, you may be financially responsible for services you get one calendar day or more past the date you received the adverse determination notice.***

# Utilization Management

## Review Criteria

Criteria are established and periodically evaluated and updated with appropriate involvement from providers who are members of the Ambetter Utilization Management Committee. Utilization review decisions are made in accordance with currently accepted medical or healthcare practices, taking into account special circumstances of each case. An Ambetter Medical Director reviews all potential medical necessity denial decisions.

**NOTE: Ambetter takes steps to ensure that decisions regarding the provision of healthcare services are based solely on appropriateness of care and services, and the existence of coverage. Ambetter has policies in place to ensure that:**

- **Decision making is based only on appropriateness of care and service, and existence of coverage.**
- **The organization does not specifically reward practitioners or other individuals for issuing denials of coverage or service care.**
- **Financial incentives for decision makers do not encourage decisions that result in underutilization; a member or the treating providers may obtain the criteria used to make a specific adverse determination by contacting the Medical Management Department at 1-877-687-1187 (TDD/TTY 1-877-941-9235 or Mississippi Relay 711).**

## Your Privacy

At Ambetter, your privacy is important. We have policies in place to protect your health records. Ambetter protects all oral, written and electronic Protected Health Information (PHI) across the organization. We follow the Health Insurance Portability and Accountability (HIPAA) requirements and have a Notice of Privacy Practices. We are required to notify you about these practices every year. This notice describes how your medical information may be used and disclosed, and how you can get access to this information. Please review it carefully. If you need more information or would like the complete notice, please visit [Ambetter.MagnoliaHealthPlan.com](https://Ambetter.MagnoliaHealthPlan.com).

### **Refusal of Treatment**

You may refuse treatment to the extent that the law allows. You are responsible for your actions if treatment is refused or if the PCP's instructions are not followed. You should discuss all concerns about treatment with your PCP. Your PCP can discuss different treatment plans with you, and if there is more than one treatment plan that may help you, your legal representative or guardian will be the final decision maker.

### **Identity**

You have the right to know the name and job title of people giving you care. You also have the right to know which provider is your PCP.

### **Language**

You have the right to an interpreter when you do not speak or understand the language being spoken by the provider.

### **New Technology**

Ambetter evaluates new technology, including medical procedures, drugs and devices, and the new application of existing technology, for coverage determination. The Ambetter Medical Director and/or Medical Management staff may periodically identify relevant technological advances for review pertinent to the Ambetter population. The Clinical Policy Committee (CPC) reviews all requests for coverage and makes a determination regarding any benefit changes that are indicated. When a request is received for coverage of new technology that has not been reviewed by the CPC, the Ambetter Medical Director will review the request and make a one-time determination. This new technology request will then be reviewed at the next regularly scheduled CPC meeting.
